**PROGRAM:** The focus of our English and German language programs is on speaking particularly. Due to the many international participants English and German are the main camp languages. In our courses we want the kids and youths to speak and discuss topics while being actively integrated in playing games. The main focal point is not placed on rote learning grammar and vocabulary but on practical application meaning an active approach to freely communicate with native speakers from Canada, England, and Germany as well in the German courses. Languages classes will take place each weekday during the complete morning or afternoon (4units per day).
